

Final Clean Services

Braxton offers complete construction cleaning services. The importance of a well done final clean job cannot be ignored. The final clean prepares for the initial inspection by the owner, such that the owner could, if he so desired, take possession of, and occupy the unit upon completion of this initial inspection. Braxton recognizes the importance of this process in opening a new business. Each project is unique and we work very hard to make sure every detail of your final clean project is handled with the highest quality of craftsmanship and care. Overview of Final Clean Procedures:

- Remove any and all trash, dirt, and debris from the interior of the unit and dispose of as directed by the Contractor's Superintendent.
- Clean and polish kitchen cabinets, kitchen countertops, and vanity tops. Vacuum the inside of all cabinets, as required to remove dirt and debris. Polish all cabinets, vanities, and other stained woodwork and all stainless steel sinks using lemon oil or other polish.
- Clean and shine the inside and outside surfaces of all windows and sliding glass doors.
- Clean and shine all electrical fixtures and trim.
- Clean and shine all appliances. Remove all packing materials, temporary labels, and operating and maintenance manuals. Place in kitchen drawers as directed.
- Clean all wood base, casing, and sills. Clean all wood shelving.
- Clean the outside and inside of all exterior doors, including the threshold. Clean and shine all interior doors.
- Sweep and mop all VCT tile floors. Damp mop all tiles using a shine and conditioner in the mop water.
- Sweep all exterior storage areas, garages, patios and stoops.
- Dust or vacuum walls as needed.
